Type of Structure:

☐ Single Family Residence ☐ Commercial ☐ Mobile Home ☐ Other _____

Applicant Signature _____

Roosevelt County is in the process of evaluating existing road names and address numbers throughout the County. There may be re-naming of roads where necessary, and re-addressing non-compliant structures to State of Montana Standards and Enhanced 911 National Emergency Numbering Association (NENA) guidelines. The major purpose of this change will be to facilitate the easy and rapid location of properties by law enforcement, fire protection services, search and rescue and emergency medical services to protect public health and safety of all persons living, working or visiting in Roosevelt County.

Address assignment is solely based on the location provided by the Resident/Owner at the time of this application. If the structure is mapped and found to be significantly different than where reported, the Roosevelt County GIS Department will re-issue the address number for this structure.

You may be required to present this form to various agencies as proof of your address (e.g., Roosevelt County; Banks; State of Montana; Montana Dakota Utilities; Nemont Telephone). It would be great if each property owner would post new property numbers in a viewable location, within 30 days following assignment of address from the GIS Department.

Note! You will have to print this form, fill it out mail or scan, and/or email, and/or Fax to below info.

Leave Form Blank Below for Office Use Only

Address Assigned: _____

Roosevelt County, Montana
